**ARTIFICIAL INTELLIGENCE JOURNALISM GOVERNANCE**  
**The Future of Media and AI Technologies 2030**

**Prof. Mohamed Abdulzaher**

*Academic and Artificial Intelligence Journalism pioneer, CEO of AIJFR, UAE*

**Objectives of the panel discussion:**

1. To search and forecast the future of the media industry in the Fourth and Fifth Industrial Revolutions. And how would 4IR and 5IR technologies shape the media industry in the era of Artificial Intelligence Journalism, and beyond in the era of the 7G Journalism?
2. To design the world human dynamic skills map, and answer to the main question of: how would artificial intelligence tools and solutions reduce the dynamic skills gap between global human talents.
3. To discuss the future world possibilities, and challenges to set rules and regulations to manage for artificial intelligence technologies Governance in some humanitarian fields such as:
  - Governance to manage the AI technologies in Media and mass communications.
  - Governance to manage the artificial intelligence applications in healthcare and medical fields.
  - Governance to manage the artificial intelligence solutions and tools in Remote learning.
  - Governance to manage the artificial intelligence technologies in sustainable cities.
